Torture Equal to the ching and Burning of nis Fearful Disease.

first symptoms of Eczema, but it is not long before the little redness begins to itch and burn. This is but the beginning, and will lead to suffering and torture almost unendurable. It is a common mistake to regard a roughness and redness of the skin as merely a local irritation; it is but an indication of a humor in the blood-of terrible

ma-which is more than skin-deep, and can not be reached by local applims of ointments, salves, etc., applied to the surface. The disease itself, e real cause of the trouble, is in the blood, although all suffering is produced gh the skin; the only way to reach the disease, therefore, is through

Mr. Phil T. Jones, of Mixersville, Ind., writes: "I had Eczema thirty years, and after a great deal treatment my leg was so raw and sore that it gave me stant pain. It finally broke into a running sore, and an to spread and grow worse. For the past five or years I have suffered untold agony and had given up hope of ever being free from the disease, as I have en treated by some of the best physicians and have sken many blood medicines, all in vain. With little with left I began to take S. S., and it apparently ande the Eczema worse, but I knew that this was the the remedy got rid of the poison. Continuing to S. S., the sore healed up entirely, the skin became dear and smooth, and I was cured perfectly." Eczema is an obstinate disease and can not be cured by a remedy which is
